The weather is oppressive, but farmers are progressing finely with their work. Corn is pretty much all "laid by," as the last plowing is called. The hay is all secured, and the whistle of threshing machines is heard in the land.

The protracted 'meeting season opens in a few weeks, and from that time until the middle of September the farmers, their families and visitors will put in most of their spare time attending all-day services in the shady groves which surround the country churches, not the least attraction of which is the thought of the bountful dinners provided on the grounds, and which taste so delicious in the fresh, open air.

Great Loss to Highland.

(Special to The Times-Dispatch.) mons, a plow-hand on a farm in Highland known as the Glendy place, unbarthed a very old coin while at work early in

for his find.

Highland county horse people have just suffered a great loss in the death of Sir Walter Raidigh, a blooded stallion, owned by Mr. A. V. Huyler, of New York, but for three seasons in charge of a gentleman in this county. Raidigh was a trotter, came of a proved ancestry, and was the finest horse ever brought to this county. He was seven years old, valued at \$1,500, and was theured for \$1,500. The loss is appreciated more especially at this time because marked attention is being given to the improvement of stock in Highland, a statement which applies not only to horses, but to cattle, sheep and hogs as well.

The nation's birthday was celebrated only in a quiet way by Highlanders. At Montercy there was a game of ball batween the Montercy and Doe Hill teams, a game of backet-ball by the young ladies, a social at the hot of the Misses Hird and a ball at Hotel Montercy.

Not only is the stay of the teachers at the institute being made profitable, but by the efforts of the energetic and genial business manager, Superintendent J. H. Davis, it is being made pleasant for them. Each week of the institute an entertainment of some kind will be given. The teachers will be admitted free to all of them, and the people of Farmville for the nominal sum of twenty-five cents. With an attendance daily increasing, with faithful and enthusiastic student-teachers, with an able corps of instructors, and with the excellently equipped Normal School building, the Summer School at Farmville should be foremost among the normals of the State.
